Company Accounts User Guide

DIY Accounting Company Accounts User Guide

Thank you for using DIY Accounting as your limited company accounting system.

Note: This package supports the **small profits Corporation Tax rate** (19%) for companies with taxable profits up to £50,000. Companies with profits above £50,000 should seek professional advice regarding marginal relief and the main CT rate (25%).

Written upon Excel spreadsheets, the Limited Company accounting system is based upon double entry accounting principles which has been automated through use of Excel formulae, significantly reducing the need for bookkeeping or accounting knowledge with all double entries automated.

Entering the data is no more complicated than entering your financial information in 3 lists:

- Enter sales receipts on the **Sales** spreadsheet
- Enter purchases on the **Purchases** spreadsheet
- Enter cash and bank transactions on the preset **Cash and Bank** spreadsheets

The package produces automated monthly profit and loss accounts, live debtor and creditor reports, automated VAT returns, and a set of annual accounts ready for publication and submission to Companies House and HMRC.

02/04/2026 00:27:51 1 of 51 Financialaccounts.xlsx OpenAccounts

Open Accounts – enter corporate details and opening balance sheet

Limited companies are required to keep a set of statutory books at Companysecretary. The Companysecretary > Boardmeeting worksheet is where the dividend declared for the current financial year is entered.

Previous Year Accounts

As all companies are required to produce a Balance Sheet each year, opening balances need to be entered before live transactions. Enter balance sheet details at Financialaccounts > OpenAccounts in Column E and subtotals in Columns G to O.

Opening Fixed Assets

Enter original cost and accumulated depreciation totals at Financialaccounts > OpenAccounts, then detailed information at Fixedassets > Schedule in the EXISTING FIXED ASSETS section.

Back Up

Back up files regularly by emailing them to yourself weekly. Store in a separate mail folder for easy retrieval.

Value Added Tax

VAT registered business: No adjustment entries required. VAT is automatically collected at 20%.

Non VAT registered: Go to Sales Spreadsheet Column G Row 2 Cell G2 and enter 0. The Purchases spreadsheet automatically adopts the same rate.

Flat Rate VAT: Go to Sales Spreadsheet Column G Row 4 Cell G4 and enter the flat rate percentage.

VAT Cash Accounting Scheme: Enter transactions in the month they are paid, not when invoiced.

Protection and Parameters

Date format: Enter dates as DD/MM/YY. The format dd.mm.yy is not recognised.
