

Company Accounts User Guide

DIY Accounting Limited

DIY Accounting Company Accounts User Guide

Thank you for using DIY Accounting as your limited company accounting system.

Note: This package supports the **small profits Corporation Tax rate** (19%) for companies with taxable profits up to £50,000. Companies with profits above £50,000 should seek professional advice regarding marginal relief and the main CT rate (25%).

Written upon Excel spreadsheets, the Limited Company accounting system is based upon double entry accounting principles which has been automated through use of Excel formulae, significantly reducing the need for bookkeeping or accounting knowledge with all double entries automated.

Entering the data is no more complicated than entering your financial information in 3 lists:

- Enter sales receipts on the **Sales** spreadsheet
- Enter purchases on the **Purchases** spreadsheet
- Enter cash and bank transactions on the preset **Cash and Bank** spreadsheets

The package produces automated monthly profit and loss accounts, live debtor and creditor reports, automated VAT returns, and a set of annual accounts ready for publication and submission to Companies House and HMRC.

Contents

- Preparing to Get Started
- Value Added Tax

- [Protection and Parameters](#)

Financialaccounts.xlsx OpenAccounts

Open Accounts – enter corporate details and opening balance sheet

Limited companies are required to keep a set of statutory books at Companysecretary. The Companysecretary > Boardmeeting worksheet is where the dividend declared for the current financial year is entered.

Previous Year Accounts

As all companies are required to produce a Balance Sheet each year, opening balances need to be entered before live transactions. Enter balance sheet details at Financialaccounts > OpenAccounts in Column E and subtotals in Columns G to O.

Opening Fixed Assets

Enter original cost and accumulated depreciation totals at Financialaccounts > OpenAccounts, then detailed information at Fixedassets > Schedule in the EXISTING FIXED ASSETS section.

Back Up

Back up files regularly by emailing them to yourself weekly. Store in a separate mail folder for easy retrieval.

Value Added Tax

VAT registered business: No adjustment entries required. VAT is automatically collected at 20%.

Non VAT registered: Go to Sales Spreadsheet Column G Row 2 Cell G2 and enter 0. The Purchases spreadsheet automatically adopts the same rate.

Flat Rate VAT: Go to Sales Spreadsheet Column G Row 4 Cell G4 and enter the flat rate percentage.

VAT Cash Accounting Scheme: Enter transactions in the month they are paid, not when invoiced.

Protection and Parameters

Date format: Enter dates as DD/MM/YY. The format dd.mm.yy is not recognised.

Worksheet Protection

Level	Description
Unprotected	Sales, Purchases, Cash and Bank, Fixed Assets, Company Secretary
Protected	Financial Accounts Trial Balance, Corporation Tax, CT600
Password Protected	Financial Accounts Admin (dates and tax rules)

Formulae Parameters

Workbook	Row limit
Sales	Row 300
Purchases	Row 300
Cash and Bank	Row 200

Sales Spreadsheet

Record income from all sources, except bank interest received, in the Sales workbook.

Column	Entry
H	No entry - net amount calculated
J	How paid
K	Amount paid

Purchase Code Letters

Code	Meaning
S	Direct materials for resale
C	Sub-contractor services
O	Other direct costs
D	Directors wages (not in PAYE)
W	Employee wages (not in PAYE)
R	Premises rent and rates
P	Light, heating, power
T	Distribution and transport
Q	Equipment, tools, plant hire
M	Repairs and maintenance
U	Consumable materials
A	Advertising and promotion
G	General admin (telephone, postage, stationery)
H	Travel and hotel expenses
V	Motor vehicle expenses
N	Insurance costs
F	Leasing charges
L	Legal and professional fees
Y	Charitable donations
Z	Goodwill
FA	Fixed asset purchases

Expenses Claim Form

Twelve monthly expense claim forms are included in expensesform.xlsx. Enter mileage, expense type, total claimed, and VAT. The form calculates mileage allowance at 45p per mile.

Cash and Bank Spreadsheets

Four account workbooks are provided: Currentaccount, Savingaccount, Creditcardaccount, Cashaccount.

BANK CURRENT ACCOUNT													
	< Opening Bank Balance	01-Apr-25	Totals >	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00

1 of 7

Fixedassets.xlsx Schedule

Fixed Assets Schedule - asset categories with depreciation and capital allowances

Depreciation Rates

Category	Rate
Land & Buildings	0%
Plant & Machinery	10%
Fixtures & Fittings	20%
Computer Equipment	33%
Motor Vehicles	25%

Fixed Asset Additions

Enter purchases on the Purchases spreadsheet with code **FA**, then also enter on Fixedassets > Schedule in the New Assets section (Row 56+).

Capital Allowances

Annual Investment Allowance, writing down allowances, and balancing charges are automatically calculated. Motor vehicles attract writing down allowances at the rate set in the Admin sheet.

VAT Returns

VAT RETURN Quarter 1 2006

Value Added Tax Return		
<i>Copy values in boxes to your Vat return</i>		
To calculate vat payable 1.Click Cell G5 Vat Period 2.Click down arrow 3.Select Vat quarter end date		
VAT Period ends		Monday 30 June 2025
Due date:		31 July 2025
VAT due on sales	1	0.00
VAT due on purchases from other EU states	2	0.00
VAT due on sales	3	0.00
VAT reclaimed on purchases	4	0.00
Net VAT to be RECLAIMED from Customs	5	0.00
Total value of sales excluding VAT	6	0
Total value of purchases excluding VAT	7	0
<i>Note: Box 2 is set to zero, any amounts due should be calculated and inserted manually If goods are bought or sold to other EU states boxes 8 & 9 on the return will require completion</i>		
Vat returns must be received by HM Revenue & Customs on or before the due date to avoid surcharges Make cheques payable to "H M Revenue & Customs" and write your VAT registration number on the back Quote your VAT registration number as a reference if paying direct by bank Account Name: HMRC VAT: Account No: 11963155 Sort Code: 08 32 00		

VAT Return – automated quarterly return from Sales and Purchases

No entries required. Five automated returns provided. To generate: go to VATQtr1, click Cell G5, select the quarter-end date from the dropdown.

Payroll Integration

The Financialaccounts file contains a WagesInterface for manual entry. The Payslips file provides automatic integration when saved to the same folder.

Wages Interface

Column	Entry
C	Gross Wages (Employees and Directors separately)
D	Income Tax deducted
E	National Insurance deducted
F	Other Deductions
G	Net Wages (auto-calculated)
H	Employers National Insurance
I	Statutory Deductions recoverable from HMRC

Financial Accounts

Stock Control

Cells H4 N4 T4 preset to 0% (disabled). Enter actual stock percentage to enable. Cell AB30 for year-end physical stock value.

Trial Balance

No entries required. Check Row 91 for zero (audit accuracy check). All data flows automatically from the prime entry worksheets.

Monthly P&L (MnthP&L)

No entries required. Auto-generated from the Trial Balance each month.

Published P&L (PubP&L)

No entries required. Statutory format for Companies House and HMRC submission.

Published Balance Sheet (PubBalSht)

No entries required except Director Signature. Must be signed by a named director before submission.

Published Notes (PubNotes)

No entries required. Notes detailing fixed assets, directors emoluments, dividends, and corporation tax.

Corporation Tax

No entries required. Corporation Tax for small companies is calculated at the small profits rate (19%). The net bank interest is automatically grossed up for CT purposes.

CT600

No entries required. Excel copy of the official CT600 tax return, auto-populated from the Corporation Tax sheet.

Submission Documents

Companies House (online)

Use the CorporationTax and CT600 sheets in Financialaccounts.xlsx to review your CT600 data before filing online.

Companies House (paper)

Submit: Report (title page), PubP&L, PubBalSht (signed), PubNotes.

HMRC (paper)

Submit the above 4 documents plus Corporation Tax calculation and CT600.

Sales Invoice

The Salesinvoice workbook is independent. Set up Business Details, Customer Details, Product Details, then use Invoice Database to generate invoices.
