K VALUE	Stock Control User Notes 1. Enter the average percentage stock value in cell H4. This is the average % of direct materials included in net sales value. 2. Optional: manually calculate the % of direct materials included in net sales value and enter this percentage in cell H4. 3. Column F automatically collects the value of direct material purchased from the monthly purchases worksheet. 4. Column L automatically calculates the value of direct materials sold by applying the stock sales % to the value of direct materials purchased. 5. Optional: At the end of each month conduct a physical stock check and value the items counted at cost price. 6. If the % of stock sold in net sales is correct then Column Z should be zero unless stock has been lost..
