K VALUE

Stock Control User Notes

1. Enter the average percentage stock value in cell H4. This is the average % of direct materials included in net sales.
2. Optional: manually calculate the % of direct materials included in net sales value and enter this percentage in cell H4.
3. Column F automatically collects the value of direct material purchased from the monthly purchases worksheet.
4. Column L automatically calculates the value of direct materials sold by applying the stock sales % to the value of direct materials purchased.
5. Optional: At the end of each month conduct a physical stock check and value the items counted at cost price.
6. If the % of stock sold in net sales is correct then Column Z should be zero unless stock has been lost..
